

**GLPI Support Services**

# HOW DOES GLPI NETWORK SUPPORT WORK?

- The contact would start with **Tiers 1 and 2**, provided by the partner (**TICGAL**). If necessary (bug), would be escalated to **Tier 3**, being **Teclib'**, the GLPI editor responsible for its resolution depending on the Subscription SLA.
- The support provided by TICGAL is not included in GLPI Network, nor GLPI Network Cloud.

# WHY SHOULD I CHOOSE TICGAL AS THE PREFERRED PARTNER?

# WHICH INSTANCE IS BEST FOR MY ORGANISATION?

	ON PREMISES	YOUR CLOUD (AZURE, AWS, ETC.)	GLPI NETWORK CLOUD	TICGAL SAAS
