PLUGINS

XTENDED PLUGINS

TICGAL is a client-driven company. Your needs have defined our course and continue to shape our Product Portfolio. Open source on our core. Some services have evolved into Products.

Go ahead and discover our continuously growing selection.

ABOUT PREMIUM PLUGINS

By subscribing to an Xtended Plugin, you will get the following

- Right to get updates while the subscription is active
- Software guarantee (Bug fixes)
- All plugins will support GLPI versions N and N-1, where N is the last minor version in production. Currently, 10.0.X and 9.5.X. (Teclib's supported ones)
- You can install them in as many GLPI instances as you wish. However, only two GLPI instances are supported (Production + Testing)
- The subscription is valid for a year

NOTES

All plugins are open source and some may require a subscription/
license from a third-party software publisher.

ASSET HANDOVER

Handle the handover and return of your assets in a breeze

Main features

- Hand over and return GLPI assets
- HTML Customizable template for handover and return
- Multilanguage support
- Affect every GLPI user or even Suppliers
- Keep track of every asset a particular user has or had

SMART ASSIGNER

Reduce your managing overhead by automating ticket assignment
The smart ticket algorithm applies a combined approach based on two pillars:

TECH AVAILABILITY

No more late tickets because of technician leaves.

Only available techs are assigned based on their interactions with GLPI

ASSIGNMENT STRATEGY

Round - Robin

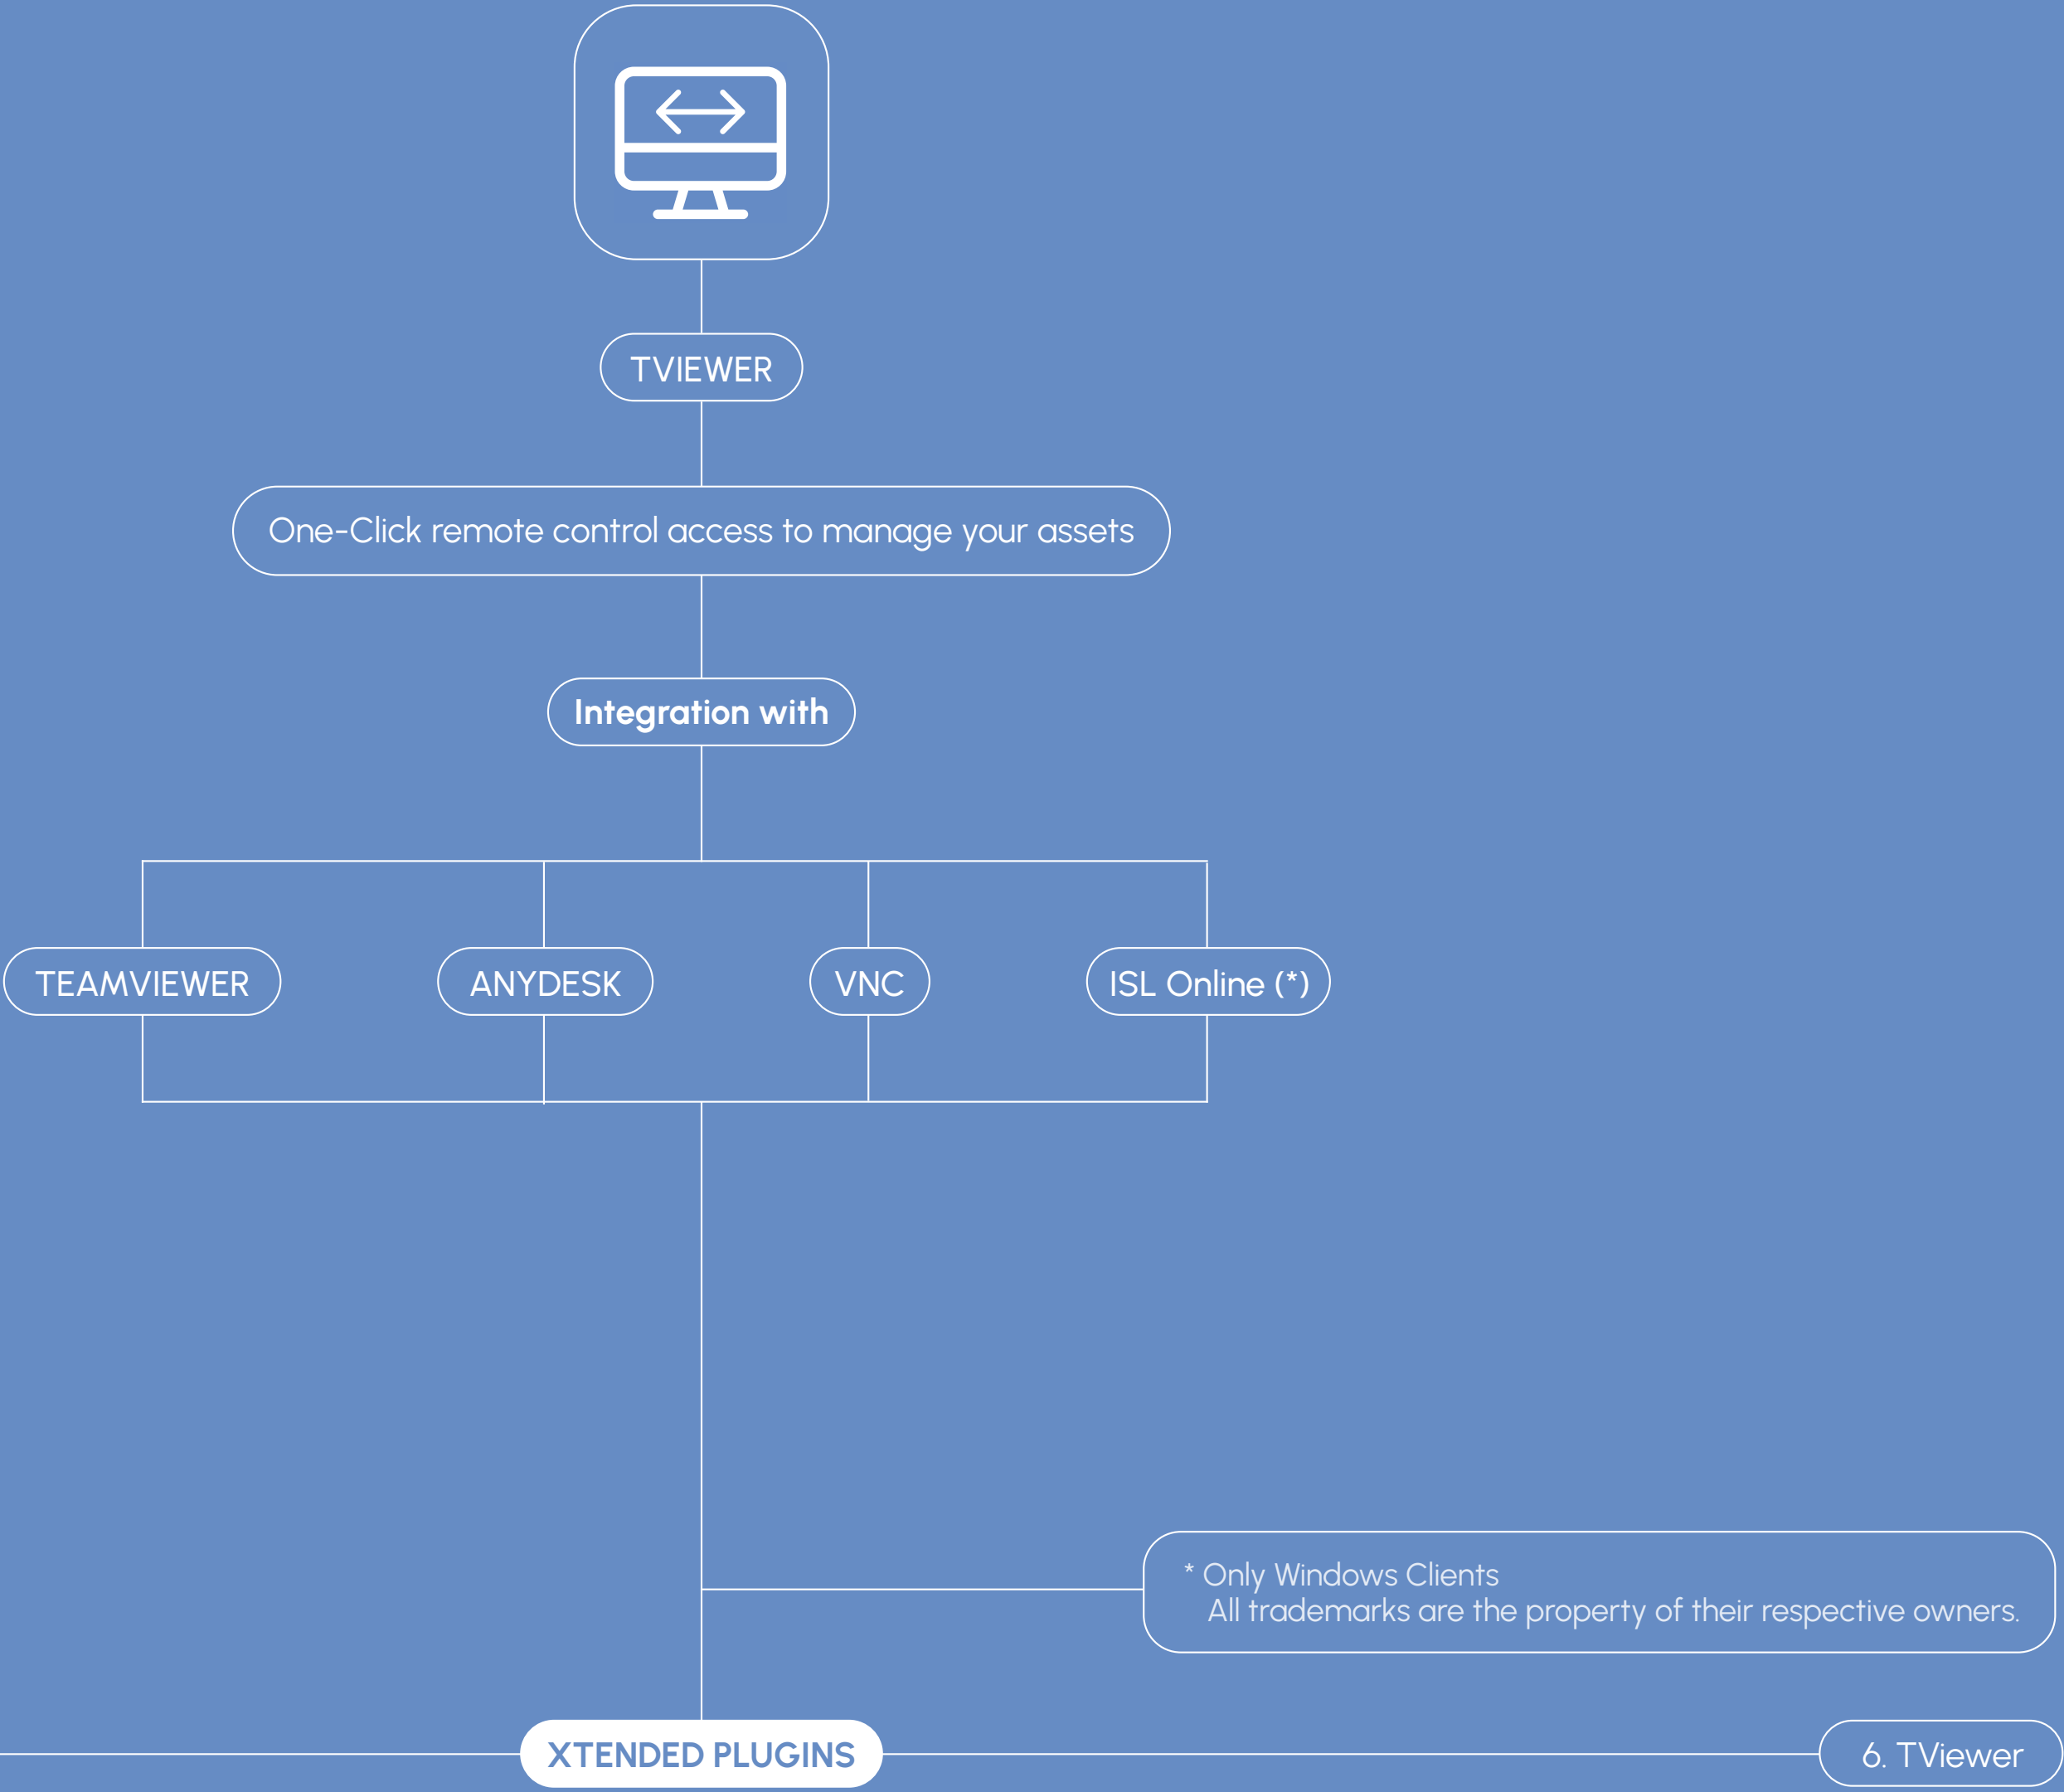

Workload

Random
